International Symposium on Health Technology Assessment “Translating Knowledge and Best Practices into Policy for Evidence Informed Decision making in Healthcare Sector for Universal Health Coverage”

10th December 2021 | Timing : 2:30 PM to 5:30 PM IST
New Delhi

The International Symposium aims to discuss global best practices in HTA, for development of a sustainable model of evidence based decision making through HTA institutionalization in the country for Universal Health Coverage. It will also provide a forum for the exchange of relevant country experiences and policy lessons on the use and adoption of HTA including the role and relevance of technology assessment methods to support and informed decision-making. Active engagement of all the stakeholders and multi-sectorial coordination is needed to identify areas of work, scoping decision problems, commissioning economic evaluation, technical appraisal, quality assurance and dissemination of results and recommendations for implementation in healthcare sector.
